Dear Hiking Club Member:

Thank you very much for asking about submitting your photographs to the Southern Arizona Hiking Club website.

Any photographs you submit should be resized to make them more conducive to downloading and viewing on our website. A typical size would be 640 x 480 pixels.

If you wish, you can rename your photos before sending them. The best naming convention, if you choose to do this, is to simply use the date the photo was taken, the name of the hike or location where they were taken, and a number. For example: *6-24-2009 Cardiac Gap 01*.

Please do not add any text to the photo.

To make sure I recognize which emails contain photos, I've established a separate email address for submitting photos. Please attach your photographs to an email, and send that email to *photos@sahcinfo.org*.

Important! You should also put the date and hike as printed in the SAHC Bulletin in the subject line of the email. For example: 6-24-2009 Cardiac Gap.

Depending on the current workload, you can expect your photos to be posted within a day or two.

If you have any questions I haven't anticipated, please feel free to contact me via email at *webmaster@sahcinfo.org*.

Sincerely,

Jerry Dean
